

## How to apply for

Many governmental as well as public service organisations require the use of DigiD to access their services.

Using DigiD allows you to prove your identity online,
and safeguards your data with these organisations. This document explains how you can register for and use your personal DigiD.

# EXTRA VERIFICATION VIA SMS

To both safeguard your identity and have access to privacy sensitive services, like health insurance, it is recommended to opt for extra verification by sms. Whenever you log in with DigiD, you are required to enter the verification code received on your mobile phone.
